

# INTERMOUNTAIN ELECTRIC

---

## A TEGG Service Provider

As a TEGG Service Contractor, IME is focused on protecting commercial properties, industrial facilities, educational institutions, municipalities, data centers, and healthcare facilities from electrical hazards and interruptions in electrical service. IME understands the challenges you face, and can provide unique solutions that include:

**Ultrasonic services • Infrared thermography • Voltage & current diagnostics  
Inspection by licensed electricians • Power quality • De-energized services  
Electronic documentation • Safety standards compliance**

These solutions are designed to help your facility become safer and more efficient. It is more important than ever to:

- ✔ **Reduce business interruption costs**
- ✔ **Extend equipment life**
- ✔ **Minimize electrical utility costs**
- ✔ **Meet insurance requirements**
- ✔ **Reduce repair costs**
- ✔ **Minimize life and safety risks**
- ✔ **Reduce arc flash exposure**
